

Color *Works!*

USING COLOR FOR DRAMA, IMPACT, AND FUN

6th Annual Designer & Industry Forum

Color Works!

Color is dramatic, color highlights, color sells! Color sets the tone for any room, sets the stage for a grand entrance, sets the mood for an elegant event. Color can make a home historic, or daring or *moderne*, a kitchen appliance whimsical, an intimate corner cozy, a work of art the focal point, or an upholstered piece approachable. As designers, builders, and merchants to

the trade, we use color in so many ways. Forum '09 is a celebration of the role color plays in our work and an examination of why it is so important in the final result. Today's paints, fabrics, and finishes are technically sophisticated and carefully crafted, but the final result—when color works best—is when it simply pleases the eye and makes the room sing!

We are pleased to offer you the opportunity to advertise in the Program Directory, which includes all booth listings, a schedule of events and important resource information.
